Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 5 Other: 818.02(a) By Originally Presented Claims

The claims originally presented and acted upon by the Office on their merits determine the invention elected by an applicant in the application, and in any request for continued examination (RCE) which has been filed for the application. Subsequently presented claims to an invention other than that acted upon should be treated as provided in MPEP § 821.03.

821.03 [R-3] Claims for Different Invention Added After an Office Action

An amendment canceling all claims drawn to the elected invention and presenting only claims drawn to the nonelected invention should not be entered. Such an amendment is nonresponsive. Applicant should be notified by using form paragraph 8.26.

In the present case the Applicant cancelled claims 1-22 regarding a method for notifying entities of events and now presents the newly added claims 23-51 a new and much different method of notifying travelers in changes in travel information which now includes two new steps limitations which may constitute new matter, and even if not, if both sets of claims had originally been presented a restriction would have been made. It is suggested that the applicant file a proper RCE with claims drawn to the originally presented invention or a divisional and/or continuation in part in regard to the later claims.

NOTE: In order to expedite prosecution Examiner briefly addresses REMARKS dated 5/2/07.

In re: page 8, middle of page Applicant states that the old 112 first and second rejections are now moot. That may or not be true. However new 112's will be forthcoming. That of new matter and also lack of antecedent bases with for example, claim 23 (b) should likely read "detecting when a change in the travel information" otherwise the claim is confusing. The 102 and 103 would definitely because of the new limitations.
